paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 512 Publisher: Electronic Industry Press. Pub. Date :2009-08. Java is the most popular and fastest-growing programming languages. Because of its open, cross-platform features, attracting a large number of developers and software companies. While many software companies and the joint efforts of people with lofty ideals, there have been many excellent open-source framework for the Java language in the field of enterprise development has injected new blood. Context of the specific case of the book introduces readers to the project Java EE development of the whole process, the book introduces a total of 10 project case studies, covering several more currently popular open source frameworks such as Struts, Spring, Hibernate, JSF, while also for the development of distributed enterprise-class EJB technology, the project development process. I also used several times to the Ajax technology to enhance user experience. In each case a project description, the author is in accordance with the actual development steps, and a module to a module are described. The code for each project have carried out a detailed description of the core code also...
