The site is known as Box Canyon Creek, and is twenty-five miles downstream from the city of Twin Falls, ten miles north of Buhl, and nine miles south of Wendell, in Lincoln County. The inserted map will serve to show the location of the site. The country immediately about the power site is included in the Twin Falls North Side Segregation under the Carey Act. This is a tract of 150,000 acres already supplied with water and is being rapidly settled and cultivated. Immediately across Snake River, on the opposite side from the location of the power house is the Twin Falls South Side Carey Act project, embracing about 180,000 acres partly supplied with water for irrigation purposes. It is proposed to use the power output of the plant for supplying energy to small sub-stations where pumps will be operated.
