By Frank Droegge

Fox Chapel Publishing. Paperback. Book Condition: new. BRAND NEW, Fantasy and Medieval Mosaics for the Scroll Saw: 33 Patterns for Castles, Dragons, Knights, Unicorns and More, Frank Droegge, Medieval castles, armoured knights, dragons, and crests are among the scroll saw projects included in this pattern-filled book. The popular segmentation style, which involves applying a pattern to wood, cutting the wood according to the pattern, rounding the edges, painting the pieces, and gluing them back into position on a plywood backing, is introduced and explained in these projects. The effect of the segmentation method is that the finished pieces resemble ceramic tile and stone mosaics created by the ancient Romans. Beginner or intermediate scrollers can simplify or complicate the projects by deleting or adding pattern lines.
