

The Eagle and the Elephant: Strategic Aspects of US-India Economic Engagement

Filesize: 9.02 MB

Reviews

Excellent e-book and useful one. It is written in straightforward phrases rather than confusing. I am just very happy to explain how here is the finest publication I have got read through in my very own lifestyle and might be the greatest book for possibly.

Oxford University Press, New Delhi, India, 2011. Hardcover. Book Condition: New. Dust Jacket Condition: New. First Edition. The Eagle and the Elephant shows how economic engagement directly affects the way the United States cooperates with India on strategic issues. Through case studies of major efforts, including civil nuclear cooperation, services outsourcing, antiterrorism, and electricity generation and the environment, Raymond E. Vickery, Jr., presents both successful and unsuccessful instances of complex collaborations between the two nations. Vickery draws on his own experience in the US Commerce Department and as an economic consultant. Buttressed by information from official sources, journalistic accounts, and interviews, he offers new insight into the interplay of legislative and executive branch officials, policy proponents, business and nonprofi t organizations, and activists. He explores how the US employs commercial diplomacy as only one component of an overall economic engagement in the formation and implementation of foreign policy. This interaction, Vickery argues, has the potential to increase inter-governmental confidence and cooperation in areas vital to both countries and to world security and peace. Printed Pages: 346. Size: 16 x 24 Cm.
