Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Health Service in Industry, Vol. 34 It is the aim of this report to present a survey of what has been accomplished in the development of that important branch of industrial organization, the Medical Department, and to discuss methods of procedure which have been applied advantageously in individual establishments. The report is based on material gathered through field investigations and questionnaires by the National Industrial Conference Board in co-operation with the Conference Board of Physicians in Industry. The Conference Board of Physicians in Industry is an informal association of medical directors of industrial organizations employing together over half a million men and women, skilled and unskilled, of many nationalities, speaking many languages, and working both indoors and out of doors in a variety of occupations. This Board of Physicians was organized on April 4, 1914, for cooperative effort in introducing into industrial establishments the most effective measures for the treatment of injuries or ailments of employees; for promoting sanitary conditions in workshops; and for the prevention of industrial diseases. It now acts as advisor to the National Industrial Conference Board on medical problems in industry. The members of the Conference Board of Physicians in Industry are men of wide experience in their respective fields of industrial medical work, who have gained a thorough understanding of the requirements of their industries from the humane point of view, and of the physical ability of men and women generally to meet these requirements. They are also familiar with the personal habits and the living and working conditions of industrial workers, and are therefore particularly competent to deal with medical problems in industry. About the Publisher Forgotten Books publishes...
